Any issue with grades should be addressed first with the grader and only if it cannot be resolved student can bring the issue to the instructor's attention. Important NOTE: In some occasions, the instructor may decide to administer evaluations where students are allowed to use their "paper notes"- (NO BOOK OR ELECTRONIC COPIES), so it is in your best interest to attend to class and take good notes; they may be handy in such situations. These class quizzes amount to 10% of the class grade. <ul style="list-style-type: none">- Instructor will grade both Midterm and Final. Any questions regarding midterm or final grades should be directed to the instructor.- After adding all grading components, the instructor will do calibration (relative grading model) and assuming population grade is a continuum: Top ~15% grades will be an A, next ~15% will be A-, etc.- Late assignment submission: lose 10% of the homework grade for every day late and homeworks will not be accepted/graded after 5 days of the due date.
Expectations:	<ul style="list-style-type: none">- Homework Assignments are solved individually; no collaboration or copying.- If student copied homework answer from another student both students will be referred to the Department office for disciplinary action.
